**Are you representing an  
election candidate?  
Here's questions I would  
like answered:**

1. If elected, how do you plan to balance the needs of the library with other funding obligations?
2. What do you think the main role of libraries is and how do you plan to help them achieve that role?
3. If elected, how will you work with the library to help groups like newcomers, seniors, and students?
4. How will you ensure the right people are appointed as trustees of our library board?
