

Thank you

We are thrilled to announce it was another successful pumpkin auction! While the exact tally has not been finalized, we estimate that profits will be close to \$15,000! We want to give a huge shout out to everyone who supported our efforts this year – our generous donors, everyone who bid online or came out to the live portion, and the volunteers working behind the scenes to bring it all together – THANK YOU! These funds will be used for ongoing library services as well as planned interior upgrades and development of a more robust inventory of tech items for lending and in-library usage. These priorities were identified through our recent community surveys and subsequent Plan of Service development. The Plan of Service can be viewed on our website and copies are available at the library. So again, on behalf of the Board and the library staff, THANK YOU and see you next year!
